

Scalamobil: Transfer Systems - Scalachair X3

scalamobil®

Climb stairs in your own wheelchair!

Scalachair X3:

The scalachair X3 is a good alternative to a normal wheelchair, particularly in small rooms or where the staircase is narrow. The bracket for the scalamobil is integrated into the scalachair X3.

The easy-rolling wheels make the chair comfortable to push and provide a secure footing to shift to another chair. The cushions can be removed and washed.

As an option a folding version is available; this can be folded away with just one movement and can then be stored, requiring a minimum of space.

Headrests for extra sitting comfort, handgrips for easier pushing and either a lap strap or harness complete the list of accessories for the scalachair X3.

Weight and measurements:	
Weight	12.8 kg (28.2 lb)
Width	51 cm (20 in.)
Height	95 cm (37.4 in.)
Depth	68 cm (26 in.)
Depth (folded)	34 cm (13.4 in.)
Max. weight of occupant	120 kg
